

# Cedar Rapids Community Schools - E-Registration Parent Guide

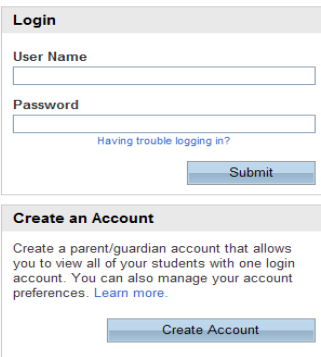

Parents,

In order to provide a more flexible and cost effective approach to student registration, the Cedar Rapids Community School District requests you use an online enrollment process. This will provide parents a quick and easy way to update addresses, phone numbers, emergency and medical information, etc. You will also be able to fill out permission forms and other optional forms traditionally filled out and mailed into your respective schools at the beginning of each year.

To begin, please go to the Parent PowerSchool login page: <https://pscr.gwaea.org/public/>

See the attached page for instructions if you **HAVE NOT** previously created your parent account. You will need to have this done before proceeding with the online registration process. **If you need assistance with this step, please contact your student's school.**

In the Login box enter your User Name and Password.

The screenshot shows a login form with two input fields: 'User Name' and 'Password'. Below the password field is a link that says 'Having trouble logging in?'. A 'Submit' button is located below the password field. Below the login form is a section titled 'Create an Account' with a paragraph of text explaining the account creation process and a 'Create Account' button.

Please use the 'Having trouble logging in?' assistance; if needed.

You will be taken to the PowerSchool Parent Portal screen. Each of your children's names will be displayed in the bar below the PowerSchool Logo (in the upper left portion of the screen).

Along the left hand column are the screen options you have for each student.

- Click the E-Registration icon. 
- In the center column of the screen you will see the data that is **currently on file** at the school for the selected student.
